Being a model and working with photographers that allow me to be free and enjoy what I do, like Buan Stanley, makes me want to continue down this path as a career. I hope that in the near future there will be further opportunities for creative collaboration with other photographers for me.

Looking great is important to me....and being in fashion of course. curling my hair is what I like to do when I have a shoot. I love being outdoors doing sports, or swimming.my love for animals is surreal ,and I help foster puppies, as well as help our local vet with injured animals during school holidays.my dream is to shoot with a famous photographer one day...and being featured in many magazines....I was born to shoot !!

What makes me a Bonton girl?

Hope. Effort. And a little luck. I started modeling when I was one year old and was published in a magazine. I was modeling hair bows for babies. Of course I don't remember much of that experience but I hoped I would be able to create a new modeling experiences and I wasn't sure how to start. I am excited to make my start in modeling by being a Bonton girl and my hope that this is just the beginning of something exciting for me as I know this will be a great start to my modeling career. I love the simple life and you can see through my photos that I love being a natural girl as I don't wear a lot of makeup. Hopefully I can inspire other girls to follow their dreams and go for it. I did. And now I am proud to be a Bonton girl.

I am a BONTON girl through and through, I love adventure and travel, as I am a homeschooler, this allows me the opportunity to follow my passions without the bricks and mortar school restrictions. I love the freedom of expression through photographic modelling. In my spare time I enjoy hanging out with friends, going to the beach, boogie boarding, art and Irish dancing. One of my favorite sayings is “if you early you on time, if you on-time, you late”
