Autumn Stratton Photography

Ella, Age 10

My name is Autumn Stratton, the lady behind Autumn Stratton Photography. I am creative, directive, full of ideas, bring out the laughter while behind the camera, snap-happy type of photographer. I am also a wife to an amazing man and mother to two wild kiddos. Photography is my passion. It's truly as simple as that. There is just something about freezing life's beautiful moments and bringing out the smile in others, that speaks to my soul. I have been capturing fun, beauty, and joy since I was a small child. Every season changed I would snap photos of my sisters, always printing the images as gifts for my mother. Growing and learning all the angles and reaching new heights in photoshop. I later brought my love for photography into school and each new home that followed. Snapping photos of my own kiddos at every turn. It truly makes my heart smile when I get those real moments that families will have to look back on, for years to come. I know I have with my own little family.

"You don't take a photograph, you
make it."
-Ansel Adams

Ella is a ten-year-old girl that is sunshine mixed with a bit of hurricane. This makes her the best to work with, she's quick to pose and holds her own on creativity. She has been behind her mother's lens for many years. She is 4' 8" with baby blue eyes and always has her signature closed-mouth smile moments.

Cathy has been a professional portrait artist for more than 25 years. This image is of our beautiful Sadie. Cathy photographed Sadie's mother at about the same age as her portrait over 20 years ago. It's amazing to see generations - loyal to an artist.

This image is of our beautiful Natalie - 11 year old young lady in one of our "Forgotten Age" portrait sessions.

"Forgotten Age" portrait sessions are of our daughters and granddaughters between the ages of 5 and 16 - the age that rarely gets an opportunity to experience a portrait session that is full of magical dreams that every little girl has like these.

"A boy is truth with dirt on his face,
Beauty with a cut on his finger,
Wisdom with bubblegum in his hair,
and Hope of the future with a frog in his pocket." ~ Author Unknown
This sweet guy loves catching frogs in our pond; I just had to capture him being him.

This is my daughter, I photographed her Senior photos both in a park and in an urban setting. I really love the urban setting. Cool thing is, she has been my assistant and second shooter for years. Now that she has graduated we are ready to step up our photography game.
